

# “TERZIERI AND BULL HUNT,”

In 1250, the Terzieri were nominated for the first time in the act of submission to Perugia when, after a very short interval of autonomy and freedom due to the protection of Emperor Federico II of Svevia, the ancient Castel del Pieve was subjugated by the city of the Griffin (the griffin is Perugia's symbol).

Today, the knights of the Palio dei Terzieri re-enact the ancient Caccia del Toro (Bull Hunt), hitting targets representing the breed of Chianini bulls fastened on mobile platforms. The historical Pallium that is contended every year by the Terzieri is a splendid painted tapestry, a work by artist Antonio Marroni from Pieve, depicting the archers in the act of paying homage to the Maestro di Campo (Field Master,

judge of the race) before the start signal of the competition. On the day of the Launch of the Challenge, on 15 August, the Pallium is returned by the winner Terziere of the last edition in the hands of the Podestà of Castel della Pieve, to be jealously kept in the town hall from which will be released on the day of the Caccia del Toro, to be shown in the great historical procession preceded by the gonfalone (standard) of the city.
